Table of Contents

Esri resources for your organization

Course introduction

- Course introduction
- Course goals
- Installing the course data
- Training Services account credentials
- Icons used in this workbook
- Understanding the ArcGIS platform

1 Introduction to the ArcGIS Pro SDK

- Lesson introduction
- Customization strategies for ArcGIS Pro
- Exploring ArcGIS Pro SDK documentation and help resources
- Add-ins
 - Using a sample to build an add-in
- Exercise 1: Build an add-in using a sample
 - Examine ArcGIS Pro Community Samples and data
 - Build and test an add-in
 - Remove the add-in using the Add-In Manager
- Lesson review
- Answers to Lesson 1 questions

2 Working with DAML

- Lesson introduction
- How can the ArcGIS Pro ribbon be customized?
- Using the ArcGIS Pro SDK and DAML to customize controls
- Creating an add-in with custom and existing ArcGIS Pro controls
- Exercise 2: Customize the ArcGIS Pro ribbon
 - Create an ArcGIS Pro Module Add-in project
 - Customize the ArcGIS Pro ribbon with a new tab
 - Add core ArcGIS Pro commands to a tab
 - Modify the core Map tab
 - Remove the add-in
- Lesson review
- Answers to Lesson 2 questions

3 Implementing states and conditions

- Lesson introduction

Implementing states and conditions
Using states and conditions to control visibility
Exercise 3: Change control visibility using states and conditions
 Open an existing project
 Define a custom state and condition
 Add a button to toggle the state
 Implement a Delegate command
Lesson review
Answers to Lesson 3 questions

4 Executing asynchronous and synchronous methods

Lesson introduction
ArcGIS Pro threading model
Coarse- and fine-grained methods
Creating asynchronous utility methods
Exercise 4: Use coarse- and fine-grained functions
 Open an existing project
 Select features using a coarse-grained function
 Zoom to selected features using a coarse-grained function
 Select features and zoom using a fine-grained function
Lesson review
Answers to Lesson 4 questions

5 Creating a dockpane with ArcGIS Pro commands

Lesson introduction
Creating a dockpane using an item template
ArcGIS Pro MVVM pattern
Hooking ArcGIS Pro commands and using UI controls
Exercise 5: Customize a dockpane
 Open an existing project
 Hook existing ArcGIS Pro commands
 Populate the feature layer drop-down list
 Synchronize the UI with data updated by a worker thread
 Fill the data grid with selected records
 Flash the feature for the current selected row on the data grid
Lesson review
Answers to Lesson 5 questions

6 Working with project items

Lesson introduction
Working with projects

Project items

Importing a map

Exercise 6: Work with project items

- Add a folder connection to the project

- Add a new dockpane to the add-in

- Update the dockpane View and ViewModel

- Import the selected MXD file

Lesson review

Answers to Lesson 6 questions

7 Working with portal items

Lesson introduction

Working with a portal

Searching a portal for items

Using EsriHttpClient

Exercise 7: Add a layer from a portal to a map

- Search for portal items using EsriHttpClient

- Add item results to a dynamic list

- Create a layer from an item result and add it to the map

- Run the add-in

Lesson review

Answers to Lesson 7 questions

8 Interacting with the map view

Lesson introduction

Understanding the map view

Navigating the map view using the camera

Creating a map tool

Exercise 8: Create a map tool to interact with the map view

- Add a custom map tool using an item template

- Implement the custom map tool

- Display identify results in an overlay control

- Select and zoom to features

Lesson review

Answers to Lesson 8 questions

9 Working with layers and renderers

Lesson introduction

Understanding the CIM

Applying a renderer to a layer

Providing symbols and defining a renderer for a layer

- Displaying pop-ups for a layer
- Creating layouts
- Exercise 9: Apply symbols using layer and renderer definitions
 - Examine the symbol picker
 - Get styles for the current project
 - Display symbols that match search criteria
 - Apply the symbol to the selected layers in the map
- Lesson review
- Answers to Lesson 9 questions

10 Working with geodatabase features

- Lesson introduction
- Accessing content in a geodatabase
- Exercise 10A: Access a feature class in the geodatabase
 - Add a feature class to a map
 - Add a feature class to a map as a layer
- Querying features
- Adding attachments to features
- Exercise 10B: Add image attachments to geodatabase features
 - Retrieve features
 - Add attachments to features
- Lesson review
- Answers to Lesson 10 questions

11 Editing features

- Lesson introduction
- Implementing editing tools
- Creating edit operations
- Adding edit tools to the ArcGIS Pro UI
- Exercise 11: Create an edit tool
 - Use the Map Tool item template to create an edit tool
 - Use edit operations
 - Use the GeometryEngine to rotate features
 - Add the edit tool to the Editor tools gallery and Modify Features dockpane
- Lesson review
- Answers to Lesson 11 questions

12 ArcGIS Pro configurations

- Lesson introduction
- Understanding configurations
- Deploying and using configurations

Lesson review

Appendices

Appendix A: Esri data license agreement

Appendix B: Answers to lesson review questions

Appendix C: Additional resources
